TIMMINS GOLD CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2014

(In thousands of United States dollars, except where noted) - Unaudited

1. NATURE OF OPERATIONS

Timmins Gold Corp. (“the Company”) was incorporated on March 17, 2005 under the laws of the Province of British Columbia, Canada. The Company is in the business of acquiring, exploring, developing and operating mineral resource properties in Mexico, through its wholly-owned subsidiaries, Timmins Goldcorp Mexico, S.A. de C.V. and Molimentales del Noroeste, S.A. de C.V. (“MdN”) (collectively “the subsidiaries”). MdN owns the San Francisco Mine which was placed into commercial production on April 1, 2010. The Company is listed for trading on the Toronto Stock Exchange under the symbol TMM and the New York Stock Exchange MKT under the symbol TGD. The registered office of the Company is located at Suite 1900 - 570 Granville Street, Vancouver, British Columbia, Canada, V6C 3P1.

2. BASIS OF PREPARATION

a) Statement of compliance

These condensed interim consolidated financial statements (“interim financial statements”) have been prepared in accordance with International Accounting Standard 34 - *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”). As such, these interim financial statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company’s audited annual consolidated financial statements for the years ended December 31, 2013 and 2012 (“annual consolidated financial statements”).

These interim financial statements have been prepared using the same accounting policies and methods of computation as compared to the annual consolidated financial statements in addition to the changes in accounting standards as disclosed in note 3.

These interim financial statements were approved by the Board of Directors and authorized for issue on July 28, 2014.

b) Judgements

The Company’s management makes judgements in the process of applying the Company’s accounting policies in the preparation of its interim financial statements. In addition, the preparation of the financial data requires that the Company’s management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company’s assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company’s assets and liabilities are accounted for prospectively. The critical judgements and estimates applied in the preparation of these interim financial statements are consistent with those applied and disclosed in note 2 to the annual consolidated financial statements. The Company’s interim results are not necessarily indicative of its results for a full year.

c) Basis of consolidation

These interim financial statements include the accounts of the Company and its subsidiaries. All amounts are presented in United States dollars (“US dollars”), which is the functional currency of the Company and each of the Company’s subsidiaries, except as otherwise noted. References to C\$ are to Canadian dollars. All inter-company balances, transactions, revenues and expenses have been eliminated.

3. CHANGES IN ACCOUNTING STANDARDS

The Company has applied the new IFRS standard IFRIC 21 - *Levies* (“IFRIC 21”) in these interim financial statements. IFRIC 21 is an interpretation of IAS 37 - *Provisions, Contingent Liabilities and Contingent Assets* (“IAS 37”). IFRIC 21 clarifies that the obligating event, as defined by IAS 37, that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. Levies covered under the scope of IFRIC 21 include all payments made by an entity to government organizations, but excludes payments covered under other IFRS standards.

The Company has determined that it has one reportable operating segment, being the acquisition, exploration, and development of mineral properties located in Mexico. At June 30, 2014, all of the Company's operating and capital assets are located in Mexico except for \$17,760 (December 31, 2013 - \$1,508) of cash and cash equivalents and other current assets which are held in Canada.

Reporting is prepared on a geographic and consolidated basis as determined by the requirements of the Chief Executive Officer as the chief operating decision maker for the Company. The Company does not treat the production of gold and silver, the primary two minerals, as separate operating segments as they are the output of the same production process and only become separately identifiable as finished goods and are not reported separately from a management perspective.
